# CONVOY OF NO CONSEQUENCE TO MARRICKVILLE

The Gillard Government has no mandate for a carbon tax and has lost the confidence of the nation.  
**WE NEED AN ELECTION NOW.**

The carbon tax has nothing to do with climate, if it did then fuel would not have been exempted.

This tax will not stop at just 500 companies, it will have a total blanket effect on the nation.

Carbon Dioxide is not a pollutant, it is a fertiliser/food for plants.

Our cost of living expenses will go up.  
Your Democratic right has been usurped by the imposition of this tax.

**BRING TAXES DOWN AND KEEP THEM DOWN**
